

Before a word is written, we look for what is needed in the information within our community and the world community. Once a topic is identified, such as dangerous food additives as identified in our book, Devils In Our Food, the research and writing begins. A book may take several years of researching and writing before it can be published.

OUR PARTIES

Our Book Parties are unique, fun, and entertaining. The flower arrangement party is a great way to enjoy building friendships, laughing and creation. With a slightly serious side to the Party, Devils In our food brings out the reality of the nasties now being put into food by some manufacturers worldwide. Sunshine is on the horizon when we know how to create healthy food for ourselves and family as with our book, Devil Free Recipes.

Christine Thompson-Wells, author, professional & internationally accredited educator. She has written over 60 books; some are mentioned in this brochure. She says, 'Our company now proudly brings Book Parties to your location.'

Do You Love Books? If so, Why Not Have A BOOK PARTY!

BOOK NOW

The Food You Eat

An Introduction – Nasty Food Additives Vs Healthy Eating

Eating good, wholesome food is vital for good health for all people worldwide.

Our Best-Selling book in the USA, Devils In Our Food highlights many non-identified nasty additives now being incorporated into many food products, while Devil Free Recipes gives us healthy and affordable solutions to everyday meals. Chrissy Cupcake adds to the excitement of eating healthy food when she shows your children how to make healthy, nutritional cupcakes.

Duration 2.5 hours at your location (Minimum 10 Guests) \$105.00 Per Person

How-To-Books.com & Full Potential Training are Australian companies working as one. Producing a book is just part of the journey. We go the extra mile by turning our books into Fun Party Times. Our guests enjoy gaining valuable information while enjoying friends, family or colleagues on an informative journey.
